TECHNICAL SKILLS

Languages: C, C++, JavaScript, TypeScript, SQL, HTML5, CSS3

Frontend Development: React.js, Next.js, Svelte, Tailwind CSS, shadcn/ui, Canvas API, Rough.js

Backend Development: Node.js, Express.js, Socket.IO, Next.js API

Developer Tools: Git, Github, VS Code, Visual Studio, Sublime Text, Postman

WORK EXPERIENCE

Full Stack Developer

Feb 2026

Orbits+

UK

- Built highly performant and reactive user interfaces using SvelteKit, leveraging its compile-time optimization to reduce bundle size and improve load speed.
- Designed clean, scalable component architectures with efficient state management, ensuring smooth user experience and maintainable codebases.
- Integrated frontend seamlessly with backend APIs, handling asynchronous data flow, error states, and optimizing UI rendering for real-time responsiveness.

Full Stack Developer

Oct 2025 – Dec 2025

GoMind AI LLC

Austin, Texas

- Owned end-to-end frontend development in React Native, shipping scalable features across MVP and post-MVP stages.
- Engineered backend systems using NestJS, optimizing APIs and enhancing system architecture for better performance and scalability.
- Configured and managed AWS deployments, collaborating daily with the team to streamline development, releases, and system reliability.

PROJECTS WORKAROUND

Hostify | *SvelteKit, Node.js, TypeScript, MongoDB, Azure, KV, Docker* | [live link](#) | [github](#)

- * Built a full-stack static site hosting platform enabling one-click deployment of GitHub repositories, with automated webhook-based redeployments and custom subdomain support.
- * Engineered scalable backend services using Express.js and MongoDB, integrating GitHub OAuth, webhook verification, and deployment pipelines for seamless CI/CD-like workflows.
- * Designed a performant frontend dashboard using SvelteKit, and implemented cloud integrations with Azure Blob Storage and Cloudflare KV for efficient hosting, routing, and caching of deployed applications.

Draw.wine | *React, Node.js, TypeScript, Socket.IO, Canvas API, Gemini AI, Redis, Solana* | [live link](#) | [github](#)

- * Built a real-time collaborative whiteboard using React, TypeScript, Node.js, Socket.IO, enabling low-latency multi-user drawing, synchronized interactions, and seamless real-time collaboration across shared sessions.
- * Implemented scalable collaboration features including room management, host permissions, join approval, and Redis-backed session persistence with distributed pub/sub synchronization.
- * Integrated Gemini AI for contextual chat, intelligent vector drawing assistance, and AI-powered element generation, alongside Solana wallet authentication and blockchain-based premium payment workflows.

ACHIEVEMENTS

- Selected for **Stanford Code in Place (CIP) 2024**.
- Top **200/3000** participants at HackNITR (NIT Rourkela).
- **Top 11% globally** on LeetCode (Rating: 1717).
- CodeChef Global Rank **606/30,523** (Starters 175).
- Active open-source contributor during Hacktoberfest 2024 and 2025.

EDUCATION

Odisha University Of Technology And Research

Bachelor of Technology in Information Technology, CGPA 9.25 / 10

Bhubaneswar, Odisha, India

Sep. 2023 – June 2027
